### Capstone Meeting Agenda 3

#### Modular Platform Design in Web Development

October 4, 2023.

Confirm Design Concept and Style.

- Color Scheme
  - Should there be a dark mode?
- Layouts
  - Nav and Sub Nav
  - Footer, Can Items, and Categories
  - Featured Lander
  - Recent Showcase (Can be made to be any other kind of showcase) and poleroid stylized cards.
  - About section.
    - Should we keep the terminal or keep the section in general. (It was added to give personality)
- Other Pages
  - Should other pages be in the same style with the colors, or should it be plain. For example, should the article page be white instead of the colored background to make it easier to read.
  - Dark mode to let the user choose how they read.

(If time – Scott will take control on this part since he has more experience with databases.)

Database

- Attributes for:
  - Articles.
  - Signed In user.
  - Student.
  - Admin/Professor.
